

organics...handle with care!

MISSION COMPOSTABLE!

We're making it as easy as 1, 2, 3...

Please don't use
bio-degradable
or plastic bags in
your GREEN bin!

1. Place a
compostable liner in
your kitchen caddy

2. Place all food and other
small organic waste items
including paper towel
in the caddy

3. When full, tie a knot in
the liner and place it in your
GREEN lid organics bin

If you have a **GREEN** bin service, we'll be delivering you a FREE starter pack of compostable bin liners for your kitchen caddy during December.

Designed for use in our Organics Composting Facility, these corn-starch liners will provide a clean and easy solution to collecting and storing your kitchen waste.

PS. If wrapping your scraps in newspaper or 'going nude' works for you, please don't stop!
