FOR IMMEDIATE RELEASE

August 5, 2018

Traffic disruptions for Romiaka bridge work

WORK on the Romiaka Bridge on the Yamba Road is progressing with the installation of girders planned for this week.

The girders were scheduled to be delivered and installed on Thursday and Friday, but the contractors have now advised the work will be done over three days – Thursday, Friday and Saturday.

Clarence Valley Council bridges engineer, Adele McGeary, said the girders would be lifted from the existing bridge onto the new structure and traffic would need to be stopped for up to 15 minutes at a time while that work was being done.

“Installation of the girders is obviously an essential part of the build,” she said.

“We appreciate this will be an inconvenience to motorists but the contractors will do everything possible to keep the disruption to a minimum.”

The \$3.46 million Romiaka Bridge Replacement project is being jointly funded by the Australian Government through the Bridges Renewal Programme, and the NSW Government under Restart NSW Fixing Country Roads.

Release ends.
